WATER 500ml.....£0.89

WHAT DO WE MEAN?

"TWICE FRIED"

First we start the cooking process by frying our wings at a lower temperature. We then pause half way through and allow our wings some rest & relaxation time. This resting time is very important as that's when the magic happens. Next we fry our wings a second time at a much higher temperature.. this is when they get extra crispy!!!! (We do the same with our skinny fries too!!)

"TOSSED"

We make sure our wings are fully coated in our signature sauces by tossing them with the sauce to ensure distribution of the sauce
